

# Navigating AI Adoption in Government for the Commonwealth

Leveraging new technologies for efficient and effective  
operations

**Joel Maddux**

**Department of Agriculture  
and Consumer Services**

**Tashmeen Malik**

**Department of  
Taxation**

**Andrea Macgill**

**State Corporation  
Commission**

**Jessica Lee**

**Department of  
Corrections**

**John Kirk**

**Department of  
Wildlife Resources**

# Leveraging new technologies for efficient and effective operations

- What is AI?
- AI is here
- Preparing Virginia to compete with private sector

# AI in Virtual Reality

- Originated in the game industry
- Immersive user experience resembling real-world simulations
- Revolutionize Workplace Training
- Increase Career Technology Education and Certified Workers

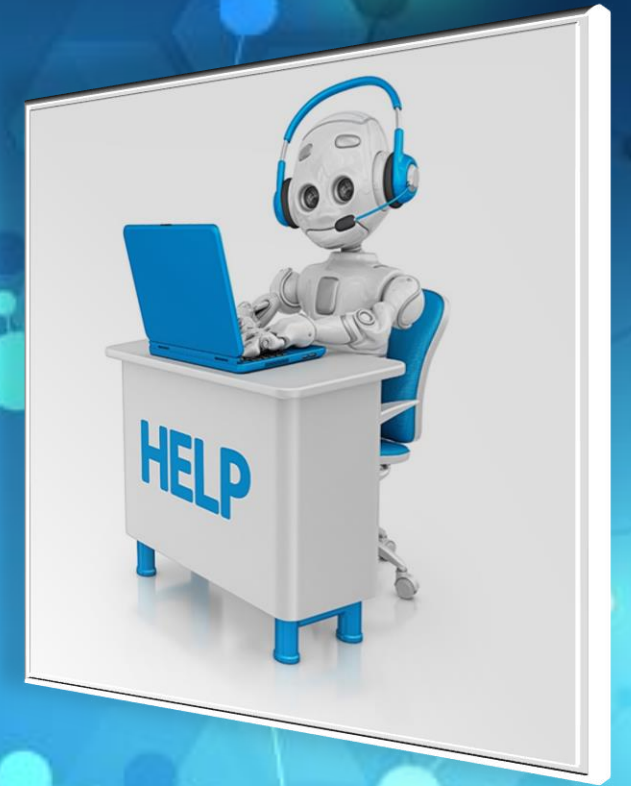

# Robotics

- Distinct technologies with powerful integrated applications
- Current and proposed uses
  - Delivery systems
  - Sorting and selecting
  - Safety applications
- Benefits and Considerations

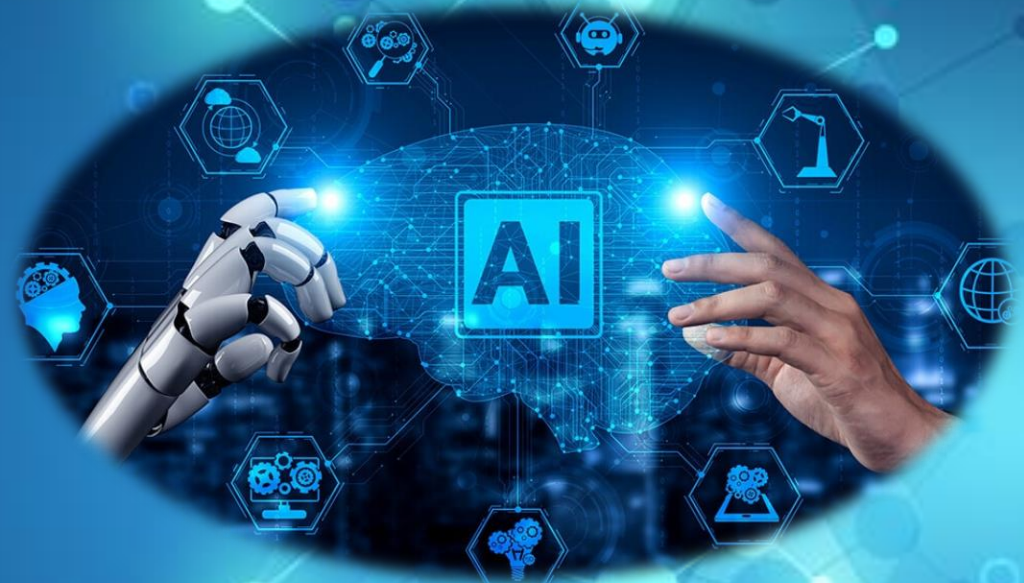

# ChatBot

- What is a ChatBot
- Why should an agency invest in a ChatBot
- Pitfalls to avoid when implementing a ChatBot
- Implement a Proof of Concept (POC) first

# Going forward – Short-Term and Long-Term Considerations

- Create a new division within VITA focused on AI
- Addressing generative AI use by state employees
- Pilot Programs
- AI Education
- Propose legislation around specific issues
